by **Rodlin Design**
Banquet Seating: **Templum Chair** Designed and Manufactured
by **Castelli** and Supplied by **Rodlin Designs**

TO WHOM IT MAY CONCERN

We as the Architects for the above project would first like to recommend the use of these two high quality products. Secondly, to any prospective customer of Rodlin Designs, that they have provided us with committed and quality workmanship. They have stood by their products with their after sales support and service, and ensured that all their work was completed timeously.

We have no hesitation in recommending their use for either product that was utilised on the ICC Durban as both products have met the international standards that were set for the project.

Thanking you

John Ferendinos
Coordinating Architect
